Meeting Room Booking System

Welcome to the Meeting Room Booking System repository! This project provides a web-based platform for scheduling and managing meeting room bookings efficiently. Users can explore available meeting rooms, make bookings, and view their booking history.

Features

- Explore and select from a list of available meeting rooms.

- Schedule meetings by selecting a room and date/time.

- View and edit your existing bookings.

- User-friendly interface for both booking and administration.

Getting Started

To get a copy of this project up and running on your local machine, follow these steps:

- Open your web browser and navigate to http://localhost:3000.

- Explore available meeting rooms and make bookings as needed.

- View and manage your bookings in the "Your Bookings" section.
